

# Aldo Aníbal COLOMBO

FULL STACK WEB DEVELOPER

+54 911 6260-2503 | [acolombo1@yahoo.com](mailto:acolombo1@yahoo.com) | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

## SUMMARY

I'm a developer who has gone through multiple experiences in life ranging from Electronics Engineering to maths and computer science teacher, and now my new incursion into web development.

## SKILLS

**Front-End:** JavaScript, React, Redux, jQuery, HTML5, CSS3.

**Back-End:** Ruby, Rails, Postgres SQL.

**Tools & Methods:** Git, GitHub, Mobile/Responsive Development, Chrome Dev Tools, Visual Studio Code.

**Professional:** Remote Pair-Programming, Teamwork, Teaching.

## EXPERIENCE

### HIGHLIGHTED PERSONAL PROJECTS

#### Full Stack Web Developer

Remote  
March 2022 – Present

[Metrics](#) – Metrics is a mobile application for showing a list of cryptocurrencies ordered by market cap. It makes use of coinpaprika.com API to have values updated. It also shows additional data on the opening of a crypto card.

- Built with: React/Redux, JavaScript ES6, CSS3, GitHub.

[Leaderboard](#) – An app that keeps a record of a leaderboard making use of an API. It allows for the addition and removal of scores from different browsers or locations and keeps them safe.

- Built with: JavaScript ES6, HTML5, CSS3, GitHub.

[Awesome Books](#) – A collaborative simple single-page website that displays a list of books and allows you to add and remove books using local storage to save the data. We used a medium-fidelity wireframe to build the UI.

- Built with: JavaScript ES6, HTML5, CSS3, GitHub.

### DETECT

#### Computer Science Engineer

Buenos Aires, Argentina  
March 2006 – September 2007

- Achieved a successful refactoring of a code no one dared touch as it was a crucial component of the company.
- Achieved successful installation of dozens of different-sized computer-based CCTV systems, all without hassle.
- Achieved successful renovation of the company's employees' computers, which the company's owners highly appreciated.

### HODIF

#### Computer Science Teacher for the disabled

Buenos Aires, Argentina  
December 2001 – March 2006

- Got several people who were impaired to embrace the personal computer, for whom it was a life-changer.
- Built two voice-enabled applications that helped some of them, for whom it was a life-changer.
- Built a team together with the psychological staff, that enhanced the learning experience.

## EDUCATION

### MICROVERSE

March 2022 – Expected December 2022

#### Remote Full Stack Web Development Program, Full Time

- Spent 1300+ hours mastering algorithms, data structures, and full-stack development while simultaneously developing projects with Ruby, Rails, JavaScript, React, and Redux.
- Developed skills in remote pair-programming using GitHub, industry-standard Gitflow, and daily standups to communicate and collaborate with international remote developers.

### ITBA (Instituto Tecnológico de Buenos Aires)

March 1991 – October 2001

#### Electronics Engineer Degree, Full Time, 5 year

- Thesis: Voice-enabled computer-based application for the disabled (motor).
